

Bronze Package

[BRONZE PACKAGE PAYMENT LINK](#)

Foundational Programming | Minimal Accountability

The Bronze Package is designed for individuals who are comfortable working independently and primarily need a clear, structured plan to follow.

This option includes a professionally designed training program aligned with your goals, experience level, and available training environment. Once your program is delivered, you are responsible for execution at your own pace, with minimal oversight.

A single monthly check-in is included to review progress, address questions, and make light adjustments if needed. This package is best suited for self-motivated individuals who value structure over supervision and prefer autonomy in their training.

The Bronze Package provides direction, clarity, and a starting framework—while placing responsibility for consistency and follow-through in your hands.
